

Take the right way

Automotive premium lamp upgrade
solutions for your car

GE imagination at work

Megalight Plus

Up to 50–60% more light on the road

- Special high luminance lamp design
- Longer beam
- Brighter illumination
- Helps in improved driving performance at night. Major international studies prove, that improved headlamp illumination levels help in the reduction of accidents at night time or in poor visibility conditions.

Megalight Ultra

Up to 90% more light on the road
High performance lamps for visibility,
convenience and style

- GE Megalight Ultra lamps , thanks to their special filament design and coating system, provide up to +90% more light on the road than standard halogen headlamps.
- Help in improved driving performance at night. Major international studies prove, that improved headlamp illumination levels help in the reduction of accidents at night time or in poor visibility conditions.
- The greater illumination, combined with whiter light resulting from the blue partial coating, offer added safety to your driving - especially advantageous for elderly and fatigued drivers.
- Silver top gives an attractive appearance, especially in clear lens reflector headlamps.

Megalight 120

Up to 120% more light on the road
GE defined new levels of performance
by further optimization of the process
and using 100% xenon gas fill design.

- GE Megalight Ultra lamps , thanks to their special filament design and coating system, provide up to +120% more light on the road than standard halogen headlamps
 - Provide special lighting performance based on optimization of the filament size and brightness, utilization of xenon gas and optimized halogen additives plus a super optimized coating.
-
- Help in improved driving performance at night.
 - The greater illumination, combined with whiter light resulting from the blue partial coating, offer added safety to your driving - especially advantageous for elderly and fatigued drivers.
 - Silver top gives an attractive appearance, especially in clear lens reflector headlamps.

Sportlight™

Intense blue-white light up to 50% more light on the road

- Color selective coating for enhanced color temperature. Intense white light comparable with daylight. Improves vision and helps to reduce strain on eyes and tiredness.
 - Xenon fill gas used to maximize performance in luminance, color and life. The best combination of high luminance and high color temperature.
-
- Modern, premium design. Aesthetic combination of blue coating with silver top (H4, H7). Stylish look for all clear-glass headlamps.
 - Faster signal, earlier notice (miniature lamps: tail, stop and blinker function)

Extra Life

Extended long lifetime

- Double the life of standard bulbs
- Suitable for Daytime Running Light (DRL) use
- Ensures safe driving during day and night

24V Heavy Star

Heavy Duty Long Life
Longer intervals between changes,
more economical driving

- Newly developed coil design – increased robustness
- longer life vs ordinary 24V heavy duty lamps
- improved performance ensures less vehicle down time, lower maintenance cost and lower overall running cost

Rally

High wattage headlight and foglight lamps
for OFF ROAD use only
